

Now You \$ee It...

Now You Don't!

First, it was \$45 million...

Then last week it was \$80 million ...

Now Jackson execs say they “think” the budget shortfall is \$229 million ... but they're not sure!

Does anyone at Jackson know how to add?!

In the continuing saga of confusion, incompetence and miscalculation, Jackson's execs again told the PHT Board on Tuesday, Feb. 2, they still are not sure if the numbers are accurate. The billing system, they admitted, is a complete mess!

Here's Management's Answer:

1. Hire more consultants to figure out the billing
2. Cut Patient Care
3. Ask the unions what the employees will give up!

The nurses, doctors and healthcare professionals of Jackson will **NOT** give their hard earned money back to a broken system!

We are proud of the quality of care that we deliver
and cuts to patient care are unacceptable!

CALL TO ACTION: Do you have any ideas on how to fix Jackson's financial mess? Visit our Web site at www.seiu1991.org and take the survey called “JMH Efficiencies Survey.” If the administrators can't figure out how to run Jackson better, let's give them our suggestions!

Some Cuts Won't Heal!
