

# Worst Case Scenario Can't Happen!

The recovery plan presented to the PHT Board on March 5th is totally unacceptable!  
It would devastate Jackson, the patients it serves and the entire  
Miami-Dade County community.

Our elected county commissioners need to know:

**WE WILL NOT ALLOW JACKSON TO BE TORN APART!**

Call or email County Commissioners today!

Tell them to step up and do whatever it takes to save our great institution that is both the  
safety net and the jewel of healthcare excellence in our community.

**We are obligated as healthcare givers to be the voice for patients.**

**We will strongly oppose any plan that  
guts our public healthcare system.**
