

# SAVE Jackson!

HEALTH SYSTEM

## SAVE JACKSON FIVE POINT PLEDGE

WHEREAS, I understand how special and vital Jackson Health System is to our community. It is South Florida's leading medical center serving all patients with cutting edge medicine, superior medical and nursing care, advanced research for cures and academic education to over 1,000 doctors in training. No other healthcare system does what Jackson does... it is Miami's Medical Miracle.

I therefore support the following:

- 1** Maintain Jackson Health System as **publicly owned** and operated.
- 2** Guarantee that **voters** of Miami-Dade County **have final say** through a voting referendum on any major governance or structural changes to our public health system.
- 3** All **final operations** and transactions, books and records of Jackson be **transparent**, accessible and open for public inspection.
- 4** That all **key stakeholders** of Jackson --- patients, its employees, University of Miami, community and business leaders and other local medical providers be given **meaningful involvement** in the future of Jackson.
- 5** Jackson must maintain its **public mission of:**
  - *Providing needed medical care to citizens regardless of ability to pay*
  - *Maintaining its academic and teaching role with UM and FIU.*
  - *Retaining top doctors, nurses and other caregivers.*
  - *Continuing research into cures and advanced medical procedures.*
  - *Maintaining its leading life saving services (including trauma, burn, spine, transplant, infectious disease, ER and other critical units).*
