

Negotiations Between:
SERVICE EMPLOYEES INTERNATIONAL UNION (SEIU) LOCAL 1991 and
PUBLIC HEALTH TRUST/JACKSON HEALTH SYSTEM
Professionals Bargaining Unit

Inclusion of Non-Health Related Professionals (Company 300) Into the Professionals Bargaining Unit

- A. A new pay scale will be implemented beginning with the pay period inclusive of October 1, 2014 for the non-health related professionals who are listed in Appendix E. The variation between steps in this new pay scale will be 4.2%. The progression through steps and Longevity steps is listed in Appendix C on the "Step Progression Chart" of the Professionals CBA.

Beginning with the pay period inclusive of October 1, 2014, all step eligible full-time and part-time non-health related professionals who are listed in Appendix E will step on the newly implemented pay scale on their anniversary date at the hourly rate immediately above their own. This step will not be less than 2.5%. Any employee whose transition step is less than 2.5% will advance an additional step on the new scale.

An employee will only advance onto the newly implemented pay scale on their anniversary date provided they are step eligible. An employee is step eligible if they have satisfactory performance evaluations (i.e. met standards) and have worked the requisite number of months/hours towards the next step as outlined in Appendix C.

- B. Effective December 2, 2014, non-health related professionals who work in the IT division listed in Appendix G, upon the approval of the Chief Information Officer (CIO) or his designee, will receive an additional step called the on call pay supplement. The employees that receive this on call pay supplement are both hourly and salaried employees who are designated to be on call and are:
- Employees who are called back to work after having left the Employer's facility at the conclusion of their work day,
 - Employees who are called back to work on a day or evening on which they are not scheduled to work, and
 - Employees who are not required to come into work but are required to resolve issues by telephone or computer after their regularly scheduled shift.

On call will be done in a fair, equitable, and rotational manner. On call schedules will be posted whenever practicable. An employee may occasionally be required to respond to an emergency circumstance outside of his/her on call rotation; however, no employee in this group is considered on call 24/7. Employees should contact their VP with disputes about what constitutes an "emergency" and/or excessive hours worked outside of the normal work schedule.

Employees who receive the on call pay supplement are not eligible to receive on call pay or call in pay as described in Article XI (Salaries), section 6 and 7, respectively.
